Tous les produits de verre décoratif de Verre Select sont vendus avec une garantie limitée de 10 ans. Pour notre garantie complète consultez le www.verreselect.com

All decorative glass products sold by Verre Select come with a limited 10 years warranty. For complete warranty please go to www.verreselect.com

NOTES

Les photos présentées peuvent avoir de légères différences de couleurs et de textures avec le produit réel. Verre Select se réserve le droit de modifier la composition des produits illustrés dans la brochure.

The pictures might have some small differences of colors and textures with the real product. Verre Select reserves the right to modify the composition of the products shown in this brochure.

Les verres « d'art » utilisés dans la production de nos unités décoratives peuvent comporter des irrégularités dans le « patron », de légères bulles et des stries, qui font partie intégrante de cette matière première.

The "art glasses" used in our production of decorative units may show certain variations in the "pattern", light air bubble and channelled glass which are integral part of the product.

Le procédé d'oxydation utilisé pour noircir les tiges de plomb antique est artisanal et amène des variations de fini et couleur qui font partie du processus. Des zones « rougeâtres » ressemblant à de la « rouille » peuvent apparaître occasionnellement de façon aléatoire et ne peuvent être considérées comme des défauts.

The technique used for antique welded lead is hand made. A "reddish-brown" colouration, that resembles the look of "rust" is sometimes evident and is inherent of this came product, particularly at the solder joints. This will not be considered a defect.
